Opportunity to Pay Respects to the Deceased / Gathering of Family & Friends / Viewing Options

Family and friends are encouraged to gather, express grief, and provide support to one another. This is often the time to begin the healing process and grief experts have encouraged this time for families and friends. A viewing or visitation is included in most plans or as an available option to other plans. Viewings are available for both burial and cremation related events. We offer public and private gatherings, washing / dressing ceremonies, and a simple quiet time to say goodbye.

Unfortunately, we can't currently host your viewing inside one of our outstanding facilities, but we are able to offer outdoor viewings in our unique trellised courtyards outside our Lighthouse Reception Centers. The courtyards have been screened from public view so you can spend time with your loved one and give family and friends time to see them one more time to pay their last respects. Outdoor private family viewings / visitations and physically distanced viewings for extended family and friends are also available.

In addition, we have an outdoor viewing area next to our outdoor Palm Court Lawn venue at Pacific Crest Cemetery that can be used in conjunction with funerals, memorials, and life celebrations, even if burial will occur in another cemetery.

Viewing / Gathering (included in some packages)

\$885-\$910
